Enforcement Activity

Street Services: 1 Jan – 28 Feb 2023

The remit of Street Services is wide and varied. This bulletin is a small sample of the types of cases the team have worked on over the past two months; it is not intended to be a complete accounting of all activities by the team.

Completed Matters

Unauthorized Encampments

Waste left from unauthorized encampment in Acton

Street Services have evicted 5 unauthorized encampments including a group that used a 4x4 to move the concrete barrier in front of the gate and cut the lock to gain access to the former Acton Recycling Centre on Stirling Road. The group there fly tipped more than 15 caged vehicles worth of builders' material including approximately a dozen black sacks of

Prosecutions Pending

Cases referred for prosecution: 121

Kingdom Officers

Average No Kingdom Officers per day: 5

asbestos. During that encampment, security officers from Kingdom LA Support guarded the entrance to the site refusing to allow any new people or vehicles to enter. I believe that it was the presence of this security that led to the encampment departing so swiftly without resorting to bailiffs or court orders. This led to a news item in Around Ealing: [What a waste: Fly-tipping hitting local funds - Around Ealing](#)

Abandoned Bikes and Cars

On 22nd January, Street Services and GEL cleared out all bikes that had been reported abandoned in the borough. 19 whole bikes were donated to the Let's Go Southall programme along with assorted bike parts. In the first two months of 2023, Street Services received to 289 reports of abandoned vehicles. Any report of a vehicle that does not meet the criteria of abandonment but is illegally parked is forwarded to the Parking Enforcement team.

Prosecution

A fly-tipper was prosecuted for fly tipping a car battery in Osterley Park. Rather than taking the battery to Greenford Recycle Centre for free, this offence will now cost him more than £1200: [Fly-tipper's £1,000 bill after dumping car battery - Around Ealing](#)

CCTV Enforcement

In addition to the CCTV cameras that are installed at high street locations, Street Services have also deployed three cameras: one overlooking Priors Farm Lane in Northolt, one overlooking Alderney Gardens in Northolt, and one overlooking Adelaide Road in Southall.

Adelaide Road

The Adelaide Road camera has captured people fly tipping on foot. When those events have been captured, a fly tip investigator has been dispatched to investigate the fly tipped rubbish. 7 FPNs have been issued on the back of this work and the fly tipping appears to have stopped at this location. This camera will be redeployed in the coming month.

Alderney Gardens

This camera has captured one person walking a wheelie bin up the road and fly tipping. A fly tip investigator was dispatched to the location to investigate and an FPN was issued. While the investigator was on site, a second person fly tipped in front of the officer and a second FPN was issued on the spot. The fly tipping in this location appears to have displaced to a private alleyway where communal bins were installed as a temporary measure. The camera will be redeployed in the coming month,

but fly tip investigations and further enforcement will continue in this location.

REF: Priors Farm Lane

Posters created using CCTV footage of fly tipping

Priors Farm Lane

This camera captured approximately 8 incidents of residents walking bulky waste into the area to fly tip it from the surrounding homes. Three FPNs were issued from this work, including to a repeat offender, and a set of Wanted posters were put up in the area. We have sent out letters to the residents in the area reminding them of the Council's bulky waste collection service and the camera will be redeployed in the coming month.

Ongoing Issues

Black Horse Pub – Greenford

The Black Horse Pub has closed, and the building is for sale. This building is now covered in graffiti and some waste has been fly tipped on the land. We are charging the land owner with removing the graffiti and clearing the rubbish from the land.

Graffiti on Black Horse Pub

OYO Hotel - Acton

The OYO Hotel was served with a Community Protection Warning to keep their land clear of waste. Following the CPW, the land was monitored for six weeks and the business was in compliance. Recently, we have received a report that waste is beginning to accumulate on the land again and we will be serving a Community Protection Notice (CPN).

Waste storage problem on private land

Shell Station – White Hart Roundabout

Following a significant amount of work by LAGER Can beginning during the pandemic in 2020, the Shell Station at the White Hart Roundabout was served with a Community Protection Warning (CPW) to remove the plastic gloves from the outdoor space, to prevent waste from their land escaping onto the surrounding land, and to litter pick the surrounding land periodically. This was upgraded to a Community Protection Notice (CPN) in November 2022. We have received notice that Shell are challenging the CPN in court, and that case is now with our legal team to assist with.
